WELCOME

A Scripture-first path into the AI age

Ministry has never carried more moving parts. Today's leader may preach, teach, counsel, plan, write and communicate across half a dozen platforms in a single week. Artificial intelligence should never replace the shepherd — but used wisely, it can remove friction and return hours to the work only a human can do.

The Berean AI Ministry Accelerator is not simply an AI course for pastors. It is a leadership-formation programme that equips Christian leaders to use emerging technology responsibly, protect the people entrusted to them, and keep Scripture, prayer and pastoral care firmly at the centre.

Who it is for

Pastors & preachers

Reduce preparation friction while protecting your theology and your voice.

Ministry & team leaders

Bring order to communication, planning and discipleship.

Youth, children & family workers

Disciple a generation native to AI, safeguarding-first.

Communications & media teams

Multiply one message across every channel, responsibly.

Administrators

Streamline events, rosters, policies and reporting.

Missionaries & creators

Reach, translate and follow up across cultures.

What you will be able to do

Research more intelligently, prepare teaching more efficiently, communicate more clearly, run ministry operations more calmly, disciple more widely online, and build repeatable, responsible AI workflows — with the discernment to know when *not* to use AI at all.

THE SPINE OF THE PROGRAMME

Six principles that keep technology under truth

Every module is built on the BEREAN Framework — the methodology that gives the course an intellectual and ethical spine, and the reason it cannot be reduced to a set of AI tricks.

B**Biblical authority**

Test every output against Scripture and sound doctrine.

E**Ethical responsibility**

Protect privacy, dignity, safeguarding and transparency.

R**Relational ministry**

Use technology to strengthen human connection, not replace it.

E**Effective stewardship**

Save time, reduce waste and improve consistency.

A**Accountable leadership**

Keep qualified humans responsible for important decisions.

N**Nationwide & global mission**

Communicate across cultures, languages and communities.

Within the framework sits the SHEPHERD method — a simple, practical way to write clear, source-controlled, reviewable prompts for any ministry task. BEREAN is the why; SHEPHERD is the how.

THE FLAGSHIP PATHWAY

From responsible foundations to a working system

Every module follows the same spine: short teaching, guided practice on a real task, a quick knowledge check, and an implementation step.

BAND A Foundations**Level 1 · AI-Aware Ministry Leader**

- | | |
|-----------|---|
| M1 | The Church in the Age of AI — what AI is, the tool landscape, and where it belongs. |
| M2 | Biblical Theology, Discernment & AI — test everything; detect drift and false authority. |
| M3 | Prompting for Pastors — the SHEPHERD Method — clear, reviewable prompts for any task. |

BAND B Core Practice**Level 2 · Certified AI Ministry Practitioner**

- | | |
|------------|--|
| M4 | AI-Assisted Bible Study Without Doctrinal Drift |
| M5 | Sermon Development & Preaching Support |
| M6 | Discipleship & Spiritual Formation |
| M7 | Youth, Families & Digital Culture |
| M8 | Pastoral Care, Mental Health & Human Connection |
| M9 | Church Communications & Content |
| M10 | Visual, Video, Audio & Creative |
| M11 | Church Administration & Operations |
| M12 | Evangelism, Outreach & Community |

BAND C Advanced & Integration

Level 3 • Certified AI Ministry Strategist

M13 Global Ministry, Translation & Culture

M14 Data Protection, Governance & Copyright (UK)

M15 Building a Complete AI-Enabled Ministry — your capstone operating system.

MEANINGFUL CERTIFICATION

Credentials you earn, not badges you watch

LEVEL 1

AI-Aware Ministry Leader

The Foundations band, a biblical & ethical assessment, and basic prompting.

LEVEL 2

Certified AI Ministry Practitioner

The core modules, practical workflows, safeguarding checks and an implementation plan.

LEVEL 3

Certified AI Ministry Strategist

An advanced specialisation, a church-wide proposal, and measurable outcomes.

Each certificate carries a unique, verifiable credential ID and can be added to LinkedIn. A Facilitator credential is available for leaders who complete the path and run the course as a cohort.

THE EXPERIENCE

Self-paced, practical, and yours to keep

FORMAT

Self-paced app

LENGTH

~22 hours · 15 modules

STARTS

Free to begin

Learn a little at a time through an illuminated path, with a read → practise → quiz rhythm, a searchable library of 150 ministry prompts, a daily-goal streak, and a capstone in which you build your own AI Ministry Operating System — a system you export and keep.

Our non-negotiables

- ✓ **Scripture remains the final authority.** AI can assist research; it never determines biblical truth.
- ✓ **The Holy Spirit cannot be automated.** AI assists preparation; it never replaces prayer or discernment.
- ✓ **People matter more than efficiency, and confidentiality is sacred.** Sensitive care and data stay protected.
- ✓ **The pastor remains accountable.** The leader is responsible for accuracy, wisdom and pastoral consequences.

“Do your best to present yourself to God as one approved... who correctly handles the word of truth.” — 2 Timothy 2:15

Begin your journey

Take the free readiness assessment, start the Foundations, and work toward your first credential.
